Dear Shedders,

We want to create a small library of Document Templates which new and future sheds can call upon to create their own necessary documents.

Can representatives from each established shed send me (or upload to the forum) copies of Shed Documents which they feel would be a good basis for creating pro-forma documents.

I can then attempt to compare and standardise each document type for the approval of the SMS Network.

The accepted documents can then be turned in to a Template Document which will be stored in a library (on the Website) for new sheds to download and modify for their own purposes.

My Initial thoughts are that we need documents for: -

- . Constitution
- . Members Handbook
- . Membership Form
- . Record of Safety Instruction/Competence
- . Health and Safety Manual
- . Standing Order Form for Subscriptions

Please suggest any additional documents for the list.
